

15Q - PENSION OBLIGATION BOND AMORTIZATION

Operational Summary

Description:

To record the use of the County's investment account held by the Orange County Retirement System (OCERS) for normal and unfunded accrued actuarial liability (UAAL) costs.

In 1994 taxable Pension Obligation Bonds were sold to finance the County's UAAL obligation. The County deposited \$318.3 million in an investment account held by OCERS. The investment account is a part of the OCERS investment pool and as such earns the same rate of return.

The investment account was initially used to make annual payments to satisfy the County's UAAL obligation according to a 15-year amortization schedule in lieu of County cash contributions; however, in 1996 the County and OCERS concluded an agreement by which the UAAL is amortized according to a 28-year schedule and the investment account is used to pay an annually declining portion of the County's normal cost obligation.

At a Glance:
